

RNW Aircraft Services Pilot Training - 421C GROUND TRAINING

Pilot:

Completion Date: _____

Total Training Hours: _____

		Initial		Rec/Requal		Transition		Upgrade	
C 421 Aircraft Specific-Ground		16 Hours		4 Hours		16 Hours		4Hrs (VFR) / 8Hrs(IIFR)	
Module		Date	Instr.	Date	Instr.	Date	Instr.	Date	Instr.
Aircraft - General									
10	A/C General Description								
20	Equipment and Furnishings								
30	Cockpit familiarization								
40	Weight & Balance - AC Spec.								
50	Performance and Limitations								
60	Checklists								
70	Preflt / Daily Insp. (Maint Training)								
80	Normal & Abnormal Proc.								
Aircraft Systems									
100	Continental GTSIO520 Powerplant								
110	C421 Electrical System								
120	C421 Pressurization System								
130	C421 Landing Gear & Brake System								
140	C421 Flight Control Systems								
150	C421 Fuel System								
160	C421 Warning Systems								
170	C421 Fire and Overheat Protection								
180	C421 Lighting Systems								
190	C421 Aircraft Oxygen System								
Systems Integration									
200	C421 Communications Equipment								
210	C421 Flight Instruments								
220	C421 Navigation Equipment								
230	C421 Aircraft Avionics Operation								
240	C421 Auto Pilot, Flight Director Sys.								
250	C421 Radar Systems								
C 421 Emergency Training		4 Hours		1 Hour		2 Hours		2 Hours	
E1	General Emergency Training								
E2	First Aid Equipment								
E3	Previous Accidents/ Incidents								
E4	Aircraft Fires								
E5	C421 Emergency Equipment								
E6	Ground Evacuation								
E7	C421 Emergency Exits
